EXPERIENCE

Cookie's Kids Department Store

Sales Assistance/Associate

Brooklyn, NY

June 2022 - September 2022

- Worked as a salesman in the store, helping customers find products.
- Maintained the store quality and morale through organization, cleanliness, and as a client consultant.
- Carried heavy packages and stocked the products back onto the shelves if they were out of stock.
- Pick-up and packaging products that customers order or send some stock products to another store.
- Changing product prices when there is a sale and ensuring everything is done correctly.

Noah's Ark Veterinary Practice

Vet Assistant

Brooklyn, NY

June 2021 - September 2021

- Worked as a vet assistant in the hospital, helping doctors and nurses in taking care of dogs and cats.
- Maintained workplace environment through organization, cleanliness, and taking care of animals.
- Always make sure the clinics are cleaned after doctors or nurses finish examining dogs or cats and prepare the room for the next patients.
- Feeding cats and dogs, taking a shower, and taking them out for a walk.
- At the end of the day make sure to clean the clinic once again and make sure all electronic equipment such as lights, and oxygen tanks are turned off, and take out all the garbage before closing the clinic.

PROJECTS

Ronin Game | Python:

- Developed systems for level editing, physics, animations, display, and sounds from scratch.
- Created a melee combat system integrated with the physics systems, like making the character dash and attack simultaneously or making it hit the unmovable platform.
- Created a level editor where a window is made that can edit the tilemap. All the changes or placements will be saved and stored in a JSON file. All the changes can also be loaded in-game.

GitHub Portfolio | In Progress:

- Delve into my evolving [GitHub portfolio](#), which contains my Projects from Hunter College.
